### **Feb 1 - Mother & Baby Wellness: speaker**

**Frances Buche** from St. Joseph Mother Baby Wellness Center shared how they help new moms with issues and questions after the birth of their baby and before they see their doctor for the first well-baby checkup. They check the weight and other measurements of the babies and check for common problems, such as jaundice. Their center averages 100 calls per month. Their funding comes from the Children and Families Commission of Orange County. Other services they provide include pre- and post-natal classes and collaboration with the doctors.
